Programming Skill

- React
- Node.js
- TypeScript
- Python
- Flask
- MySQL

Soft Skill

- Good Team Player
- Good Adaptability
- Event Management
- Multi-tasking
- Problem Solving
- Keen on Presenting

Professional Experience

- **Trainee Associate Consultant**
Altria Consulting (Pvt) Ltd
December 2024 – Present
- **Intern Data Analyst**
Altria Consulting (Pvt) Ltd
June 2024 – December 2024

About Me

I am a fourth-year Computer Science undergraduate at the Informatics Institute of Technology (IIT) with over a year of industry experience, including working as a Software Engineering Intern. Through my experience in multiple organizations, I have gained a strong understanding of professional work environments, teamwork, and industry practices. I am passionate about contributing to innovative projects while continuously developing my technical and problem-solving skills in alignment with organizational goals.

Experience

ACADEMIC MODULES:

- Professional Development
- Web Development
- Computer System Fundamentals
- Trends in Computer Science
- Mathematics for Computing
- Database Systems
- Object-Oriented Programming
- Machine Learning and Data Mining
- Client-Server Architecture
- Internet of Things (IoT)
- Usability Testing and Evaluation
- Applied Artificial Intelligence (AI)
- Mobile Application Development
- Cyber Security
- Software Development Group Project
- Final Year Project

PROFESSIONAL DEVELOPMENT UNIT (IIT)

- Course : Java Programming with OOP
Completed : May 2023
- Course : Web Development
Completed: May 2023

Education Background

- GCE ORDINARY LEVEL (2018)
passes: 7A 2B
Chilaw Ananda National College
- GCE ADVANCED LEVEL (2021)
Chilaw Ananda National College
Completed - 2022
- Foundation Certificate in Higher Education
INFORMATICS INSTITUTE OF TECHNOLOGY
Distinction Pass - 2022
- BSc(Hons) Computer Science
INFORMATICS INSTITUTE OF TECHNOLOGY
(2022 - 2026)

Professional Projects

- **MDM – Master Data Management Application**
Designed UI in Figma and developed frontend (React) and backend (Node.js) for master data management solution for HUTCH.
- **Snow Converter Application**
Created an internal data conversion application, UI designing using Figma and frontend and backend development with React and Node.js.
- **SAPData Warehouse Project**
Dashboard development using Power BI to support internal application for business insights.
- **Company Website Development (Startup)**
Designed and developed the official company website using modern technologies, contributing to the organization's digital presence and branding.
- **Research Supporter System**
collecting, managing, and analyzing data within a centralized platform, improving efficiency and accessibility of research insights.

Projects and Participants

UNIVERSITY PARTICIPANTS

- Professional Development Program – Skill Up
- Agile Methodology – Skill Up 2.0
- Github Community Workshops
- UI / UX Workshops
- Software Development Group project

UNIVERSITY PROJECTS

- **Food Store Management System**
DevelopedaFoodSupplymanagement and customer row management system using Python.
- **University Grading System**
UsingJava, developedaGradding system according to users input data.
- **Tourism Website**
Developedawebsite about Sri Lankan Tourism using HTML and CSS.
- **Simple Programs [Simple Games, Android Apps]**
A flag choosing game and a calculator apps using Kotlin.
- **Software Development Group project**
Developeda Tea Factory Management system using Java and React Native to tranfer the paper based Tea Factory Management system in to a Digitalized System.
- **Final Year Project – Supply Chain Management Prediction Model**
Developing a predictive model to analyze and forecast supply chain operations for improved decision-making.
